

# GET THE FACTS

## ABOUT THE AUSTIN QUARRY PROJECT

### WHY AUSTIN QUARRY?

#### *UNIQUE AGGREGATE*

Provides the highest quality construction aggregates in the region

#### *UNIQUE LOCATION*

Distance matters when transporting heavy material - proximity to local supply reduces cost for all

#### *UNIQUE OPPORTUNITY*

Supports planned growth, provides high-paying jobs and increases tax revenue

#### WATER

- All water consumed will be replaced
- Austin Quarry will achieve a water balance throughout its term

#### TRAFFIC

- Project will provide significant road improvements to SR 145 and SR 41
- One acceleration and two turning lanes on SR 145 by opening day
- Additional acceleration lane on SR 145 within one year

#### TRUCKS

- County permit restricts production to 2.5 million tons annually
- Project estimates 250 average work days and 25 tons per load
- Consequently, 400 trucks enter and exit the plant daily

#### ENVIRONMENT

- 765 acres of Vulcan's adjacent 2,000-acre Fenston property will be preserved
- The balance of the property and its significant wetlands and vernal pools will also be preserved
